

Photo and Video Release 2018-2019

During the school year, teachers and other staff members may photograph or videotape classroom projects, playground activities, and special events. Most of these pictures are used mainly for display or replay within the building; however, some of the pictures or videos may be shared with educators from other schools who want to learn more about our school programs and may be placed on our schools' and district websites. Also, local newspapers sometimes send photographers to cover school activities.

Agreeing to this policy means that you grant HUUSD permission to use pictures or videos of your child for the above stated purposes.
